AQILLA SIGNS THREE NEW PARTNERS AS WEB-BASED ACCOUNTING TAKEUP CONTINUES TO ACCELERATE

Joins forces with The 3r Partnership, Facilitise and SunSynergy

Aqilla, the web-based accounting software provider, has signed up three new partners in under a month, highlighting the growing interest in web-based accounting across the industry.

The partners, 3R Fundamentals, Facilitise and SunSynergy, will work closely with the Aqilla team to ensure web-based accounting software reaches organisations across all sectors and markets. The partners' areas of specialisation are:

- **Facilitise** – specialises in supplying essential technology and business services for all organisations, including hosted applications, websites, email, telephony and design. For more information about Facilitise, visit www.facilitise.com.
- **The 3r Partnership** – offers access to financial management systems and consultancy that help businesses achieves goals. For more information about The 3r Partnership, visit www.the3rpartnership.com.
- **SunSynergy** – helps SunSystems users to get more from their investment. It also provides a range of solutions that are designed for growing organisations looking to improve efficiency and performance. These solutions cover purchasing, sales, document management and workflow. For more information about SunSynergy, visit www.sunsynergy.co.uk.

An Aqilla Pro subscription is priced at £50 (excl. VAT) per user per month; data entry users for straightforward entry and capture of timesheet and expense documents are charged £10 (excl. VAT) per user per month.

For more information about the company and its on-demand accounting application, visit www.aqilla.com.

About Aqilla Limited

Aqilla Limited, founded in 2006, is the developer of web-based accounting solutions designed for small and medium-sized businesses and accountancy firms. The easy-to-use software utilises the latest open source toolsets based around Java and AJAX technologies to deliver Sales Ledger, Purchase Ledger, General Ledger, Cash Matching, Sales Invoicing, Purchase Invoicing and Time Management functions that can be accessed over the internet via a rich web browser interface. In addition, because it is delivered on-demand, Aqilla removes the need for high levels of capital outlay, as well as the ongoing expense of maintenance and management. For more information about Aqilla visit www.aqilla.com or follow us on Twitter at <http://twitter.com/Aqilla>.
